Nearest earthquake zone just 100 km from Bengaluru: Study

Notable Scientists from 1900 to the Present: D-H.

Keynote Speakers List

Layered structure of the lithospheric mantle changes dynamics of craton extension, Geophysical Research Letters, 40 22 , 5861-5866. We can be working in many different areas, and follow a certain direction which we believe is doable and workable and makes sense.

Azim Premji turns nostalgic over 40

The second part of this talk will focus on application of RL to obstacle avoidance problem in UAV quadrotor.

List

His research work focuses mainly on understanding the evolution of cratons using time-dependent mantle convection models. On the eve of Alan Turing's 100th birthday in June 2012, she was plenary speaker at the Turing Centenary Celebration at the University of Cambridge, England, showing how a little known to logicians and computer scientists! After a detailed investigations of a series of complexes formed by H₂O and H₂S, we showed that both can form hydrogen bonds.
