## European values

For results based on the full sample in a given country, one can say with 95% confidence that the error attributable to sampling and other random effects is plus or minus the margin of error. Hindus are about three times more likely to be liberal 35% than conservative 12%. Praeger, New York, 1968, pp.

## American Social and Political Attitudes

Table 1 shows the correlations between selected demographic and behavioral variables and the Cetscale scores for the two countries. The MTUS encompass over 60 datasets from 22 countries. Hollywood and the entertainment industry are often seen as in conflict with the values of certain religious groups, and a significant number of the general population 42% , including a majority of some religious groups, express this view.

## Survey Specification

H 4: Consumer ethnocentrism tendencies should be higher among respondents living in border towns and who perceive a threat to their jobs. Views on Environmental Regulations A majority of Americans 57% say stricter environmental laws and regulations are worth the cost, while 38% say such laws cost too many jobs and hurt the economy. Majorities of most Christian traditions as well as a large majority of Muslims 68% reject this idea.

## THE PULSE OF EUROPE : This four

Though the public has grown slightly more liberal in terms of self-described political ideology, it became slightly less Democratic and a bit more Republican between 2007 and 2014. The Landscape Survey finds that a majority of adults 54% with a religious affiliation see no conflict between being a devout religious person and living in modern society. Mainline Protestants and Catholics are more divided.

## **Survey Methods**

More than seven-in-ten Jews 71% , and two-thirds of Buddhists 67% and the unaffiliated 66%, including three-quarters of atheists, more than eight-in-ten agnostics and seven-in-ten of the secular unaffiliated , worry government is too involved in the issue of morality. The most patriotic respondents tended to be older, white females from blue-collar occupations.
