## Health Inequalities Among Older Adults in Developed Countries: Reconciling Theories and Policy Approaches

Social workers are often working at the forefront of these and other challenging situations, and they must apply knowledge and skills to their practice in a thoughtful and ethical way. K10 scores in the general population are known to be right skewed rather than normally distributed, which might generally suggest that linear regression on raw data is not appropriate.

## Chapter 4: Social Disorganization Theory

Consensus on how the College could assist in defining an appropriate role for the profession emerged from both program documents and interviews. It is this notion that seems to generate disagreement amongst the college respondents, external stakeholders and practicing GPs. Since systems of social protection in impacted countries are highly diverse, analysing how health outcomes changed after the MFA phase-out can also help to develop our understanding of how trade liberalization and social policies interact to influence health.
