The Irish Rising: Irish Language

The Irish language was carried abroad in the modern period by a vast diaspora, chiefly to Britain and North America, but also to Australia, New Zealand and Argentina. Zeitschrift für celtische Philologie 16: 313-356.

Foghlaim na Gaeilge ar an Idirlíon

In negative, interrogative and subordinate clauses the copula fuses with the respective preverbal particles and conjunctions, which are mostly not analysable already in Old Irish, e. The Irish Autonomous form cannot be literally translated into English, because no exact counterpart exists in English, hence the usual method of translating this form is to use the English passive voice, but the Irish verb is not therefore passive. Letters with the buaille are available in Unicode and Latin-8 character sets.

foclóir — Irish Grammar, Etymology & Trivia

A further 110,642 said they spoke it weekly, while 613,236 said they spoke it less often. The first large movements began in the 17th century, largely as a result of the , which saw many Irish sent to the.

Scottish Gaelic grammar

Primitive Irish transitioned into through the 5th century.
