### D'Mart Case Study: Most Successful Indian Chain of Hypermarkets

Smith, Reform and Decentralization of Agricultural Services: A Policy Framework, 2001. Other challenges, and even dangers, include the possibility that corrupt local elites can capture regional or local power centers, while constituents lose representation; patronage politics will become rampant and civil servants feel compromised; further necessary decentralization can be stymied; incomplete information and hidden decision-making can occur up and down the hierarchies; centralized power centers can find reasons to frustrate decentralization and bring power back to themselves. Their thought isn't to meet each customer's need like different contenders, yet rather, Dmart tries to meet most normal shopper needs, while offering some benefit for their cash.
