### Two by McCormick

With each new discovery, the line between right and wrong seems to become more blurred. Escaping degradation through great books  
 Fortunately, we Americans are not yet so degraded as to fail to notice what is wrong with the Brave New World. The reviewer, a professor of religious studies and medical education, discusses McCormick's methodology, his defense of a morality based on a broad understanding of natural law, his concern with the relation between norm and context, and his perspective on morality and public policy.

### Two by McCormick

Washington, DC: US Government Printing Office. The issue is not whether future generations shall live; the issue is what future people--if we call them such--shall be like.

### Biotechnology's Brave New World

Art and science, virtue and religion, family and friendship are all passé.

### Proxy Consent in Nontherapeutic Settings

Biotechnology, when taken too far, would give us the illusion that we can eat from that tree indefinitely. We are living longer, but we are not living healthier for longer.

### Bioethics Problems for 2020 to 2040: Emerging Ethical Challenges in Critical Care for the 21st Century

Precisely at this moment, seeing human beings graced and ennobled by love and forgiveness, the innocent, wide-eyed, and open-hearted Miranda exclaims: O, wonder! Aldous Huxley the philosopher best known for the dystopian novel Brave New World adds that the means qualify the ends the end cannot justify the means for the simple and obvious reason that. God did not intend that we live indefinitely in this decaying body, infested with sin.

Today is also for me an occasion of joy and gratitude.

## **In a Brave New World, Priests Need Grounding In Theology and Bioethics**

I regard my few years here as a Tutor in the early 1970s to be among the most intellectually and humanly rewarding experiences of my professional life. Ten years ago the Congregation for the Doctrine of the Faith published *Donum Vitae*, which in the name of Catholic teaching re-expressed the refutation of artificial procreation technologies.
