Home

Ziemba is the Alumni Professor Emeritus of Financial Modeling and Stochastic Optimization in the Sauder School of Business, University of British Columbia where he taught from 1968-2006. Nassim will consider the consequences of Fat tailedness on portfolio theory, risk parity, and various theories of diversification. Any opinions, findings, and conclusions or recommendations expressed in the individual papers are the authors' own and do not necessarily reflect those of the sponsors.

United States Courts

Career Achievement Awards 2021 - Call for Nominations The Academy invites nominations to recognize four outstanding individuals that have made significant contributions to the field of management through their service, research, innovative teaching methods, breakthrough developments, and more over the course of their career. More recently he has spent time teaching mathematics at all levels. The Proceedings of the Conference have ISBN, ISSN numbers and they will appear, after the Conference in Google.

Academy of Management

A two to five minute introduction of the topic with each panelist taking five minutes to introduce themselves and their perspectives on the topic.
