## Chemistry

Chemistry Faculty Full Time Faculty Professor And Chairperson Office: Science Hall east 4064 Email: Phone: 973 -720-2470; Fax: 973 -720-2972 Areas of specialization: Nanomaterials and Nanotechnology Associate Professor Office: Science Hall east 4061 Email: Phone: 973 -720-2539 Area of specialization: Inorganic Chemistry Assistant Professor Office: Science Hall east 4062 Email: Phone: 973 -720-2706 Areas of specialization: Organic, Bio-organic and Materials Professor and Associate Dean Office: Science Hall 3017 Email: Phone: 973 -720-2194 Area of specialization: Physical Organic Chemistry Professor Office: Science Hall east 4060 Email: Phone: 973 -720-3896 Area of specialization: Biochemistry Assistant Professor Office: Science Hall east 4059 Email: Phone: 973 -720-3462 Area of specialization: Organic Chemistry Assistant Professor Office: Science Hall east 4056 Email: Phone: 973 -720-3344 Webpage: Areas of specialization: Theoretical Chemistry, Physical Chemistry, Nanophotonics Emeritus Faculty Email: Email: Retired Faculty Email: Email. In Chemistry Chemistry Track The Bachelor of Science Degree in Chemistry is an intensive and comprehensive undergraduate program having course work, laboratory experience and research requirements designed to prepare students for advanced degrees in chemistry and other sciences and for careers in the health related professions. .

## B.S. in Chemistry

Students, faculty and staff directly exposed to or test positive for COVID-19 should fill out UCO's. The student conducts original research under the supervision of a faculty member, and then must submit a research report which is defended orally. Major Requirements ; 17 semester credit hours needed if enroll in in Math Sequence.

## What Is the Difference Between Intro to Chemistry Vs. General Chemistry?

Discussion Forums Learners will research how organic compounds apply to their lives.

## Chemistry/Health Sciences

Following graduation and certification Monmouth-educated medical laboratory scientists are readily employed and receive high starting salaries. Can anyone tell me how it's different from a regular Chemistry class one would have taken in high school? Drexel Graduate Options in Biomedical Sciences Graduates of the Health Sciences program may also continue their education in the Graduate School of Biomedical Sciences and

Professional Studies which offers over 40 doctoral, master's and professional development programs.

### **Health Sciences Admissions**

This degree provides the flexibility to choose advanced-level science coursework based on academic and professional interests. Almost every diagnosis and treatment has to be based.

### **CH103: Allied Health Chemistry**

For BS: 17 semester credit hours needed if enroll in in Math Sequence II. . It pertains to almost everything.
