The author spent a year 1947-48 living in a village in Shanxi, north China, as part of a team of academics investigating and helping to guide the process of land reform - the transformational 'fanshen' process whereby formerly poor peasants broke down the thousand-year-old social relations of feudalism and came to be masters of their own destiny. For US policy makers, practitioners, and scholars to fully assess these trends, we need to evaluate CCP narratives—and their reality—both past and present. Because of the success of the book, Hinton was welcomed back to China in the 1970s, when he visited Long Bow five times and wrote Shenfan 1983 , a sequel to Fanshen that followed the village from the 1950s through the Cultural Revolution.
