The key factors that influence productivity are volume, cost, work effort, and revenue, whereas, the factors influence the final result of productivity are quality, efficiency effectiveness, and patient satisfaction Pickard, 2014.

**Outcome Measures for Health Education and Other Health Care Interventions / Edition 1 by Kate Lorig, RN, DrPH, Anita Stewart, Philip Ritter, Virginia M. Gonzalez**

Response 2 to Mike Bird Quality and Cost Measurements Quality and improvement is an important aspect of the profession of Nurse Practitioners NP. Standardized tests of subject-matter knowledge and reasoning skills may be still better for some purposes, but may offer challenges when compared across populations.
