## MRI Radiologists and Imaging Services MetroWest

Our wide array of imaging services includes: Angioplasty: A vascular procedure, involving image-guided delivery of a balloon-tipped catheter to a narrowed or blocked blood vessel. The Board of Trustees, the HSS administration, and the physicians of HSS are dedicated to delivering excellent quality patient care but are also concerned with escalating medical costs. Patients expect reasonable wait times, both in terms of appointment availability and in-office waiting, and they deserve clear communication from staff members and hands-on compassionate care during exam and treatment.

## Radiology Information System

UAB also encourages applications from individuals with disabilities and veterans.

## Radiology Department

Fellows will receive a post-call day off on the Friday their call ends.

## Radiology

CentraState ensures the lowest dose of radiation when performing CT scans on children while still maintaining quality diagnostic images.
