### Community

Kathmandu: Ministry of Health, Nepal; 2017. According to the 2011 census, the Lekhnath Municipality has a total population of 58,816 in 14,937 households, and is administratively divided into 15 smaller units called clusters wards.

### [PDF] Early initiation of community

The field supervisor will undertake monthly visits to all households from the intervention clusters, record their observations using an observation checklist regarding intervention delivery, protocol adherence, and adverse event recording and reporting. Central Bureau of Statistics CBS.

### A community

Researchers have found that integrating services among many health providers is a key component to better treat underserved populations and communities with limited access to health care.

### Prevalence of geriatric depression in the Kavre district, Nepal: Findings from a cross sectional community survey

We included 2761 women in the analysis who had at least one birth in the past three years preceding the survey.
