RAF Observers [Archive]

. SYLLABUS The RAF Section should be a meritocracy with promotion on ability rather than by school year, age or years of involvement.

FLIGHT NAVIGATOR HANDBOOK E

Each video is roughly 3-5 minutes and you can easily pick up where you left off. Find a local school that matches your budget and your expectations to get this training completed. A groundspeed within 30 kts or so of this speed would be expected, so it is unlikely that the 102 kts is correct.

14 CFR Appendix B to Part 63

My relative comments on AEOs are my own opinions, but I have tried to keep them dispassionate and explain how I reached them. But this is only supposition. What is interesting here is that is that one would expect the TAS to be constant throughout, assuming the pilot is maintaining a steady IAS.
