And it took workers a good long time to move all those bones: 12 years, says. According to , he also created surprisingly detailed sculptures that are incredibly complex and surprisingly huge — a single cityscape is 40 feet long and positioned precisely along a pool of natural water so that it looks like a port city really is sitting there. That particular mushroom has a strange history, and according to , the tunnels under Paris weren't just used to house the remains of millions of dead — they were also used to grow mushrooms, specifically a type of mushroom that Louis XIV was particularly fond of.
