A COMPARISON OF THE ECONOMIC RENT AND CONSUMER SURPLUS METHODS OF VALUING RECREATION BOATING SITES

The data was compiled from existing statistics on the state and national economy, and includes the economic impact of conventional outdoor activities — hiking, skiing, snowboarding, ATV riding, hunting, fishing, boating. Dedicated funding programs. There are many avenues for state conservation funding, but the gold standard is a dedicated source with no sunset laws, backed by a constitutional amendment.

Maine Woods National Park

Outdoor Recreation Trends in Maine. California, Texas, and Oregon all have strong coastal public access laws, and could serve as models for other coastal and Great Lakes states interested in improving public access.

The numbers are in: Outdoor rec is crucial to national and state economies

Prior to joining NRCM in early 2020, Melanie worked at the Natural Resources Defense Council in San Francisco as well as for the National Fish and Wildlife Foundation and the American Sportfishing Association in Washington, D.

Wilderness and Economics

Nothing Reported How have the results been disseminated to communities of interest? We face a severe risk of habitat loss, habitat degradation, and changing habitats that soon may not be able to continue supporting scores of native Maine species.

Western Maine Habitat Project

While the critical program was permanently reauthorized as part of the bipartisan public lands package in 2019, it did not come with dedicated funding. Support for state conservation corps. State conservation corps not only provide critical services for public lands but also offer a gateway to young people interested in learning about the outdoors, including careers in outdoor recreation and management.

Outdoor recreation credited with \$8.2 billion annual impact on Maine's economy
