The Australian Association of Mathematics Teachers

The Centra software ran on servers at the at West Virginia University, one of the partners in the ACCLAIM program.

The Changing Shape of Geometry: Celebrating a Century of Geometry and Geometry Teaching

I do claim that my generation has done something for the improvement of the teaching of Mathematics. The publisher described Durell's book as follows:- Precise, brief, and practical, this text is the work of a highly respected teacher with years of classroom experience, who sketches the mathematical background essential to a clear understanding of the fundamentals of relativity theory.

The need to catalyze change in high school mathematics

At the turn of the century a new phenomenon appeared that, even today, continues to characterize educational reform - the committee of experts. I converted the Word files into PDF and made comments on all of the submissions using. Ask them also to rotate them.
