Carrier weathermaker 8000

The comfort temperature settings can change automatically through the use of schedules if programmable thermostats are selected. Failure to follow this warning could result in fire, personal injury, or death.

CARRIER WEATHERMAKER 8000 INSTALLATION, START

Does furnace still alternately cycle inducer motor, go through a self test, and then run blower motor 30 37 D as described in Step 27? For information on the electrical properties of Carrier motors, please see the Electrical information section of this book. Every so often, though, like every couple of weeks, the blower will start but the furnace will not ignite.

CARRIER WEATHERMAKER 8000 INSTALLATION, START

On propane installations, check manifold pressure. This will assure that Y signals are generated for cooling, and W signals are generated for heating from thermostat to zone module input.

Carrier WeatherMaker 9200 Furnaces

These elements are found in aerosol sprays, detergents, bleaches, cleaning solvents, salts, air fresheners, and other household products. Intake and exhaust pipes seem to be clear.

Fault Code 32—Low

Make sure thermostat is calling for heat.
