

# Resource assessment of copper and nickel sulfides within the Mountain View area of the Stillwater Complex, Montana

U.S. G.P.O. - Palladoarsenide: Mineral information, data and localities.

Description: -

-

Egypt -- Social conditions -- 1981-

Motion picture plays.

Lyric poetry.

German poetry -- History and criticism.

Wascana Lake (Regina, Sask.)

Urban renewal -- Saskatchewan -- Regina.

Wascana Centre (Regina, Sask.)

Philosophy -- Congresses

Philosophy and religion

Kant, Immanuel, 1724-1804

Women -- Education -- Brazil.

Sexism in education -- Brazil.

Sex discrimination in education -- Brazil.

Childrens stories, Nepali.

Nickel sulphide.

Copper sulphide -- Montana.resource assessment of copper and nickel sulfides within the Mountain View area of the Stillwater Complex, Montana

**Critical Commodity Studies, Stillwater Complex, Montana**

She wants to strong-arm the virus with a three-week full lockdown for the French capital. The best overall results are usually achieved through a clever combination of field pXRF and lab data, with pXRF

Filesize: 50.71 MB

providing the bulk of the data at low cost, on larger data sets and potentially with better reliability than lab-based campaigns based on a limited number of samples. The tram ran from the mine, up the western slope and over the continental divide of the Sierra Madre, and down the eastern slope to a mill at Riverside.

## Economic Geology

Another company recently began exploring Sandy Mountain and they hit more gold! Such deposits form when mantle-derived mafic and ultramafic magmas become saturated in sulfide and segregate immiscible sulfide liquid, commonly following interaction with crustal rocks Arndt et al. Note 1: Magmatic Ore Deposits in Layered Intrusions—Descriptive Model for Reef-Type PGE and Contact-Type Cu-Ni-PGE Deposits, Michael Zientek, USGS Open-File Report 2012—1010.

## Mineral Resources Program Scientist Receives Meritorious Service Award

Readers are cautioned that mineral resources that are not mineral reserves do not have demonstrated economic viability. Because of this mine, Canada now has other diamond mines along with hundreds of discoveries that leaped Canada from a non-producer to a country that now out-

shines South Africa! But the Professor was not alone.

### **Mineral Resources Program Scientist Receives Meritorious Service Award**

Partially melted samples show back reaction between crystallizing melt and restite such that retrograde skeletal intergrowths of biotite and quartz in the mesosome were developed.
