## Dialectic Materialism

With Lenin, the creative development of dialectical materialism and the defense of dialectical materialism against revisionism and the onslaught of bourgeois ideology were linked in the closest possible way with the development of the theory of socialist revolution and the development of the doctrine of the dictatorship of the proletariat, the revolutionary party, the alliance of the working class and the peasantry, the socialist state, the construction of socialism, and the transition from socialism to communism. It is based on the firm foundation of all of science and social practice. The solution of these problems presupposes the unification of the efforts of exponents of the specialized sciences and of philosophy.

## Исследование этических проблем генетики в отечественной философской традиции (к истории идеи биотехнологического конструирования человека)

With the origin of human society there arises a social form of the motion of matter, the bearer of which is the human being; as a subject of social practice, the human being has consciousness and self-consciousness. Characteristic of matter are such general forms of its existence as motion, space, and time.
