## Nurse practitioners: A vital force in healthcare delivery

The number of programs increased, and so did specialization. Some hospitals and health care offices use advanced technology, while others are lagging. To date, 48 nursing organizations including all national NP organizations have endorsed the Consensus Model; the target date for implementation is 2015.

## Telemedicine and its Role in Revolutionizing Healthcare Delivery

SOURCE: Adapted from Olson et al. Doing endotracheal suctioning for a patient on a ventilator in the medical intensive care unit 10. Clinical workflows in healthcare rely on technology and processes.

## The Evolution of Nursing

Haas, PhD, RN, FAAN, is a Professor, Niehoff School of Nursing, Loyola University of Chicago, Chicago, IL.

## Health care issues: Restructuring the american health care system: An analysis of nursing's agenda for health care reform—Arizona State University

In response to the scientific knowledge explosion, programs kept adding new courses, expanding their length and their credit loads. But, in other institutions, nursing care was more variable, ranging from good in some hospitals, to haphazard and poor in others. Recent global reports and initiatives have begun addressing this issue within the overall context of shortage of health workers due to various factors World Health Organization, 2006.

## Health System Transformation

NACCHO National Association of County and City Health Officials.
