

Space oceanography - lectures presented at an intensive course organised by the European Institute for Advanced Studies in Oceanography, University of Dundee, Scotland, 2nd-22nd September 1990

World Scientific - Space Oceanography

Description: -

-
Oceanography -- Remote sensing -- Congresses.
Astronautics in oceanography -- Congresses. Space oceanography -
lectures presented at an intensive course organised by the European
Institute for Advanced Studies in Oceanography, University of
Dundee, Scotland, 2nd-22nd September 1990
-Space oceanography - lectures presented at an intensive course
organised by the European Institute for Advanced Studies in
Oceanography, University of Dundee, Scotland, 2nd-22nd
September 1990

Notes: Includes bibliographical references and index.

This edition was published in 1992

Space Oceanography

. During the last decade, forecasting models have benefited from satellite data as they have improved the ability to predict events such as El Niño and other global and regional climate cycles. Ocean covers over 70% of the Earth's surface and contains about 97% of the Earth's surface water.

Space oceanography : lectures presented at an intensive course organised by the European Institute for Advanced Studies in Oceanography, University of Dundee, Scotland, 2nd

All are meant to explore the envelope of what is known and understood about the physical, chemical and biological processes of the planet.

Space oceanography : lectures presented at an intensive course organised by the European Institute for Advanced Studies in Oceanography, University of Dundee, Scotland, 2nd

Ship-based oceanographers are limited to sampling the ocean in a relatively small area with often a great deal of difficulty. It also covered the uses of these various types of data to provide information about ocean colour, biological productivity, surface temperature and other matters. Rapley; scatterometry, winds and waves, T.

Space oceanography : lectures presented at an intensive course organised by the European Institute for Advanced Studies in Oceanography, University of Dundee, Scotland, 2nd

Our oceans play a major role in influencing changes in the world's climate and weather.
