## Is Democracy the Problem?

In March 2009, parent company said job cuts would be deeper than expected, spanning its newspapers, which include the , the and the. But these new revenue streams, such as that from newspapers' proprietary Web sites, are often a fraction of the sums generated by the previous advertisement- and circulation-driven revenue streams, and so newspapers have been forced to curtail their overhead while simultaneously trying to entice new users. If democracy can make it there, it can make it anywhere.

Discussions could have helped people to be prepared for the impact of reforms. This unfavourable business climate is further emphasised by a newspaper owner and former governor of Abia State Orji Kalu thus: The operational cost media houses have to contend with is huge and keeps rising daily. Can a country, like Ethiopia, staff about 15 different governments? I hope that the progressive and democratic forces in Africa both during and after the transition will demand those reforms of the donors.

## The Problem with Democracy Today

The resultant optical quality will not be up to mark. The circulation decline, coupled with a 23% drop in 2008 newspaper ad revenues, have proven a double whammy for some newspaper chains. Early this year, the Commerce Department, prompted by a complaint from a U.

Major publishers such as and increasingly use advanced artificial intelligence AI technology to post stories more effectively and generate higher volumes of traffic. But should we blame democracy itself, or should we blame ourselves for the pathologies of our own politics? Decentralization will be territorial and ethnic based. I agree that regional concerns should exist, as should regional governments, but the state should be given central powers to allow it to function effectively and to redistribute resources where needed.

The import duties now, costing book publishers and newspaper companies millions of dollars. Why do English-language newspapers in India import newsprint at all? In response to falling ad revenues and plunging circulation, many newspapers have cut staff as well as editorial content, and in a , those cuts often spur more and deeper circulation declines—triggering more loss of ad revenues. Some other democracies such as Germany, Great Britain, the Netherlands, and Sweden do more to limit the flow of money in politics, avoid the dominance of wealthy people in legislatures, and craft national economic policies that limit inequality and represent interests more equally across different economic classes, especially in the fields of health care and education.
