Three questions that should always be included on the questionnaire are: 1 what went right, 2 what went wrong, and 3 what needs to be improved.

### After Hurricane Sandy: Time to Learn and Implement the Lessons in Preparedness, Response, and Resilience

Command centers in the Department of Homeland Security DHS and elsewhere in the Federal government had unclear, and often overlapping roles and responsibilities that were exposed as flawed during this disaster.

### A Simple Model for Facilitating Lessons Learned Session

While the finalization of a formal lessons learned document is completed during the project closeout process, capturing lessons learned should occur throughout the project lifecycle to ensure all information is documented in a timely and accurate manner. Fourth, the Federal government lacked the timely, accurate, and relevant ground-truth information necessary to evaluate which critical infrastructures were damaged, inoperative, or both.
