My First Counting Book

This is a wonderful book full of possibilities. Flip the page and you see they are cut open with many seeds in full view. Help Zanele see numbers and count along in this fun early maths book.

My First Counting Book by Lilian Moore

My son will sit for the first 5-6 pages, even though the whole book is too long for him now at two and a half years old.

My Book of Counting by Britta Teckentrup

I love the classic nature and plan to try to get the book in person. It is also interactive in that it asks reader questions about how many of a certain animal that they see. Penguins, ducklings, camels, butterflies, crocodiles, vultures, monkeys and elephants.

Beautiful art, but not what I was hoping for. I also like that to get these pesky visitors to leave she turns on the light and makes a scary face at them. Are you ready to get started with teaching better, saving time, and living more? We used a washable ink pad to do this.

Apple Counting Book

The songs provide a supportive structure that helps them feel confident as they learn to identify numbers.

My First Counting Book by Lilian Moore

The rhyming text is really fun and the pictures will make you giggle, I mean there are chickens in leotards doing ballet! When you are trying to reinforce a skill like counting the use of repetition is really helpful. There was a lot more substance to this book than Bunnies' ABC, which was essentially just the alphabet and animal names.

Printable Counting Book

This was one we read aloud to our girls as toddlers, but I'd forgotten about it until I saw a copy yesterday that someone had donated to the Bluefield College library. Little Golden Books changed that! Next, invite your students to write the numbers using the outline as a guide.
