## An Analysis of Factors Affecting Mature Age Students' Academic Success in Undergraduate Nursing Programs: A Critical Literature Review

Specifically, a complete set of GPA data from second 79% of baseline sample available and third 49% of baseline sample available years of study was not yet available. As the significant two tailed value p-value is greater than 5%, so we do not reject the null hypothesis and conclude at statistically the performance of graduate student do not vary with accommodation either they are living in hostel or living at their homes.

### Frontiers

Therefore, the participating students generally regarded it as challenging to handle the extensive course contents. This coefficient is insignificant at 5% level of significance. Perhaps someone else can take care of some tasks for you or maybe certain things will just have to move down on your priority list.

### Factors Contributing to Academic Performance of Students in a Tertiary Institution in Singapore

A week or so of breathing space allows for the interruption of unexpected events, such as family illness. The study relied on self-report measures and the cGPA reported were obtained via a questionnaire.

### Factors Contributing to Academic Performance of Students in a Tertiary Institution in Singapore

However, a study by Rienties et al. According to , students who are employed and have family responsibilities have greater attrition and less commitment to study independently. After discovering and developing their strengths, they need to apply themselves in the right manner.

### Frontiers

Study time is one of the most important factors affecting the student scores.
