## Gender disparities in health

The global financial service sector continues to rapidly embrace digitization aided by the advent of new technologies and greater government push. Targets were mothers in home management of diarrhea in children 0-5 years who came in IWC, ANC units at the Nkwen Medicalised Health Center within the period of study. A questionnaire was formulated and used to collect data from two institutions used as study areas.

## politics of civil society in confronting HIV/AIDS

However, the use of perennial crops for the production of liquid biofuels presents some drawbacks as well. This project highlights the potential value of intersec- toral stakeholder discussions from the inception stage of research to stimulate intersectoral exchange and alliance building, inform advocacy, and catalyse the process of research into action. Rome: Food and Agriculture Organization of the U.

## International Journal of Multi

Zambia has some of nature's best wildlife and game reserves affording the country with abundant tourism potential for earning foreign exchange.

## International Fund for Agricultural Development

However, there is currently a lack of evidence on whether these programmes are adequately reaching and meeting the needs of people with disabilities. In so doing the study will identify the gap and inability of workers in Jwaneng mine to file a claim for compensation when faced with insidious diseases.

## HIV/AIDS: a threat to the viability of the societies it attacks, Kybernetes

Ethical considerations were cautiously adhered to before and during the research process.
