

# Retinoid-responsiveness of chondrogenic cells in vitro and developing musculoskeletal tissue in vivo

National Library of Canada - Retinoid roles and action in skeletal development and growth provide the rationale for an ongoing heterotopic ossification prevention trial

Description: -

-Retinoid-responsiveness of chondrogenic cells in vitro and developing musculoskeletal tissue in vivo

-

S. hrg -- 98-605.

Canadian theses = -- Thèses canadiennes Retinoid-responsiveness of chondrogenic cells in vitro and developing musculoskeletal tissue in vivo

Notes: Thesis (M.Sc.) -- University of Toronto, 1994.

This edition was published in 1994
