Henry the Green Engine

He arrived shortly after Skarloey, but was at the start the more sensible of the two engines. Of course, in CGI, the effects look more realistic; not that the models are bad, of course. Since then, Awdry would base all his locomotive characters on real-life prototypes and for such characters as Edward, Gordon, James and Percy, he would invent backstories for them.

Henry/Behind the Scenes

He first appears in the book , where his rescue by is described. In the , Henry was among the members of the , the main cast of eight central characters. The Fat Controller claims that he wanted an Atlantic a locomotive with a 4-4-2 wheel arrangement.

Henry The Green Engine and Friends (Thomas Episodes Version)

With Toad's help, Oliver learned how to deal with them apart from one truck, , who was torn apart. When he first arrived in 1865, he was proud and arrogant, and believed himself too good to pull trucks. Not wanting to be separated, and knowing that one of them would have been scrapped on remaining in Scotland, they decided to travel together and hope for the best.
