New Spirituality, Self, and Belonging: How New Agers and Neo

Through in-depth interviews with 22 New Agers and Neo-Pagans, this study proposes a new model of religious identity from a sociological standpoint. This volume will appeal not only to scholars of the sociology of religion, but also to sociologists interested in community building, social movements, and self-identity. The analysis demonstrates that in spite of their great diversity of beliefs and lack of strong organizational ties, a discernible community of alternative spiritualists does exist.
