### IRIS

Once basic required content has been learned, individuals can be free to pursue additional learning within the subject according to their interests. Differentiated instruction is a way of teaching that matches a variety of learning styles. The Teaching Guides offer specific suggestions for modifying learning experiences for children with disabilities and other special needs, as well as children who are DLLs.

### individualize

This method is obviously a far cry from the way that most teachers are traditionally trained to interact with students. But what exactly does that look like? In order to involve all students in meaningful learning, a variety of teaching strategies and methodologies must be used. Each Learning Lab includes a facilitation guide that contains questions that can be asked to engage children at any developmental level.

### Individualized Learning for Students

Teachers may conduct whole-class introductory discussions of content big ideas followed by small group or pair work. It is up to you to determine how best your students can learn.

### individualize

The Solution: First Things First Before meeting with the teachers, Judi takes some time to look at the online assessment records the teachers have been documenting. We developed versions help coaches support teachers who are implementing ,, and. She has also owned her own consulting firm and provided professional development for educators on social-emotional learning, behavior management, and differentiation for students with special needs.

### Assessment for Individualization

The curriculum offers guidance on how to individualize based on children's interests, strengths, and needs. Similar to documentation notes, you

want to capture what you see and hear.
