## Recent advances in ground

On the other hand, GAB groundwater is mostly nonrenewable on planning time scales, and as such needs to be managed carefully to minimise negative effects on spring discharges and access to water for human activities. They conclude that ongoing reactivation of faults has affected mound spring morphology as evidenced by deformation of mound spring deposits. In its current form gLite would be a business disabler.

## Advances in Sustainable and Environmental Hydrology, Hydrogeology, Hydrochemistry and Water Resources

Attendance is free and open to all. Speaker Bio: Dr Adam Vile is a senior consultant and head of the Grid and HPC practice at Excelian, a consultancy that focuses on financial markets professional services.

## Advances in Geoethics and Groundwater Management : Theory and Practice for a Sustainable Development

The special issue is comprised of 26 articles, including a review paper on the history of the basin, and a profile of eminent researcher Justin Costelloe. Similarly, in the Carpentaria region, the Karumba Basin offers complete cover offshore as well as almost entirely onshore, apart from the easternmost margin.

## Recent advances in dating young groundwater: chlorofluorocarbons, $^3\text{H}$ , $^3\text{He}$ and $^{85}\text{Kr}$

One of Michael's key responsibilities is to manage the UBS High Performance Computing Research Lab and he has been involved in a number of initiatives in the HPC space. From Monte Carlo to Wall Street Daniel Egloff, Head of Financial Engineering Computing Unit, Zürich Cantonal Bank High performance computing techniques provide new means to solve computationally hard problems in the financial service industry.
