Future Technology

This has given way to computerized management tools for inventory and delivery technology. You need to make sure you are a prominent part of that influx.

The Digital Revolution and its Impact on Industry, Consumers, and Government

Marriages are becoming more and more unstable. The space research and the launching of the satellites for communication purposes have further added to these developments.

A third industrial revolution

Due to this the industrial areas developed into towns and cities.

Machine Learning and the New American Dream

To be fair, Kurzweil does acknowledge many potential dangers from new technologies such as genetic research, nanotechnology and robotics. Conversely, those who do immensely on time and money: gas, flights, discounts, hotels, books, car repairs, etc.
