## Strategic Interaction and Networks

This judgment determines both the choices of strategy spaces the actions and information players have , and the choice of solution concept. Some studies investigate constant-sum games, whereas others treat non-constant-sum games primarily such archetypal games as the prisoner's dilemma, chicken, battle of the sexes, etc. Their description of the porcupine game fits with the two descriptions by Marshall and Sbrzesny.

## How to Get Everyone Speaking in a Multilevel Class

A second line of work by game theorists concerns the strategic manipulation of political institutions to gain favorable outcomes. Those who gamble with their wits, and those who study those who do, will find this analysis important and stimulating. However, quite a few papers seem to make relatively minor contributions, in terms of model development and motivation and in the scope of their analysis.

## How to Get Everyone Speaking in a Multilevel Class

Deliberate withholding of properly requested information and intentional use of discovery to inflict financial or emotional harm are illegal.

## How to Get Everyone Speaking in a Multilevel Class

The main shortcoming of the median voter theorem of course is its restriction on the set of outcomes to a single dimension.
