But their quiet life together is shattered when her father is jailed for killing another man in a barroom brawl, and injuring Sarah in a drunken car crash. Then, from behind her, she heard another sound—a sound that to any ears but hers would have been lost in the roar of pounding surf. Did Michelle kill because she wanted to? She said she was ill—but is that the real reason the old woman summoned the son she has not seen in so many years? Susan teased her about being adopted, while she was running away, she tripped on something and fell off the bluff.
