## U.S. Fish & Wildlife Service

Average clutch size is nine range six to 11 , and eggs average 50. Systema naturae per regna tria naturae, secundum classes, ordines, genera, species, cum characteribus, differentiis, synonymis, locis. Protection from and regulation of hunting have helped these birds.

### Bufflehead

The bufflehead is an extremely rare vagrant to western Europe.

### Bufflehead

The bill is light blue-gray and the legs and feet are fleshy pink.

### Bufflehead

Characteristically, buffleheads seem to jump up before diving and resurface with a little bounce. The male has a white underside and a dark back that appears black, but upon closer inspection, is actually a deep iridescent greenish-purple. Largest concentrations are on both seacoasts and along the Gulf of Mexico.
