Staying Safe Online

For questions about the experience of care and the organisation and delivery of care, methodology checklists were used to assess the risk of bias, and this information was taken into account when interpreting the evidence. My husband and I took it in turns to stay with her, as only one of us was allowed to be by her bedside at night.

Assessment of mental health problems in people with learning disabilities

In these circumstances the evidence was downgraded. Do this every 6 months, or more often if the person is close to the end of life.

Providing support to people with learning disabilities in primary care

There may also be other local groups, locatable via social media such as WhatsApp or Facebook, where people can find support, and neighbours willing to help out. GDG membership consisted of: professionals in psychiatry, clinical psychology, nursing, social work, speech and language therapy, and general practice; academic experts in psychiatry and psychology; commissioning managers; and carers and representatives from service user and carer organisations.

NHS England » The learning disability improvement standards for NHS trusts

Adjust the nature, content and delivery of the interventions to take into account the impact of the person's learning disability and behaviour that challenges.
