TABLE OF CONTENTS

Contents

Preface

Acknowledgments

Introduction

Part One: Diagnosing Death: Problems in the Science and Practice of Forensic Pathology

Chapter One: Forensic Pathologists From Hell: Bungled Autopsies, Bad Calls, and Blown Cases

Chapter Two: A Question of Credibility: Bad Reputations and the Politics of Death

Chapter Three: The Sudden Infant Death Debate: How Many Babies are Murdered?

Alfred Steinschneider, a pediatrician at the Upstate Medical Center in Syracuse, New York, began studying infants and toddlers who had been referred to him with life-threatening breathing problems. Unfortunately, however, popular television dramas do not represent the way most homicide cases in the United States are actually handled.
