### Mitigation

Emissions of methane and nitrous oxide have been roughly constant over the past couple of decades, but there has been an increase in the industrial gases as some are substituted for ozone-destroying substances controlled by the Montreal Protocol. P3: Decision support matrix to help determine when to scale up or scale down JIS operations. Global Biogeochemical Cycles, 8, 23-38, doi:10.

### Federal :: Federal Motor Vehicle Safety Standards: Vehicle

Additionally, the DOD OIG closed 19 previously opened complaints having referred 14 of the 19 cases to other DOD and non-DOD investigating agencies for further action.

### Federal :: Federal Motor Vehicle Safety Standards: Vehicle

Partner with organizations responsible for essential health care and human services to ensure those services are provided as early as possible during the response, recovery, and return of the public health system after the incident or event.

### Mitigation

Furthermore, it is important to ensure that funding levels are sustained over time to maintain these improvements. The law in most states consists of successive layers of statutes and amendments, built up over more than 100 years in some cases, in response to changing perceptions of health threats.

## **Executive Summary**

Importantly, to restore a meaningful degree of market discipline and to address the too-big-to-fail problem, it is essential that there be a credible process for imposing losses on the shareholders and creditors of the firm.

## **Search the EPA ExpoBox Tools**

To the extent the Commission's Congressionally mandated study of PBMs provides relevant information to the issue of PBM transparency, it will be discussed in the Commission's study report. Domain, Capability, and Tier Domain Capability and Tier Community Resilience Community Preparedness Tier 1 Community Recovery Tier 2 Incident Management Emergency Operations Coordination Tier 1 Information Management Emergency Public Information and Warning Tier 1 Information Sharing Tier 1 Countermeasures and Mitigation Medical Countermeasure Dispensing and Administration Tier 1 Medical Materiel Management and Distribution Tier 1 Nonpharmaceutical Interventions Tier 2 Responder Safety and Health Tier 1 Surge Management Fatality Management Tier 2 Mass Care Tier 2 Medical Surge Tier 2 Volunteer Management Tier 2 Biosurveillance Public Health Laboratory Testing Tier 1 Public Health Surveillance and Epidemiological Investigation Tier 1 Composition Each capability standard comprises capability functions, and each capability function contains specific capability tasks that are supported by multiple capability resource elements. Most recently, DOS supported the National Oceanic and Atmospheric Administration to incorporate trafficking in persons into the agenda of the International Maritime Organization.

## **Transportation**

Consider the coordination that would be necessary if a biological attack were to occur in the tristate area of New York, New Jersey, and Connecticut. Task 2: Support timely and accurate investigations.
