## PRIZES IN FICTION, NONFICTION, & POETRY

Just black-top the whole damn thing! He was the first poetry editor of The Paris Review, from 1953 to 1961, as well as the first person to interview a poet for this magazine. Given the ubiquity of creative expression, as well as the relative ease of engagement, the extent to which psychological and physiological effects are sustainably health enhancing is an important area for public health investigation.
