

Methods in equivariant bifurcations and dynamical systems

World Scientific - Methods in Equivariant Bifurcations and Dynamical Systems (Advanced Series in Nonlinear Dynamics): Chossat, Pascal, Lauterbach, Reiner: 9789810238285: tech.radiozamaneh.com: Books

Description: -

-
 Proteins in human nutrition -- Congresses.
 Infants (Newborn) -- Nutrition -- Congresses.
 Christianity -- 20th century
 Spiritual life -- Catholic Church -- Papal documents
 Catholic Church -- Doctrines -- Papal documents
 John Paul II, Pope, 1920-2005 -- Interviews
 Computer-assisted instruction -- United States -- Statistics.
 Education -- United States -- Data processing -- Statistics.
 Mathematical physics.
 Dynamics.
 Differentiable dynamical systems.
 Bifurcation theory. Methods in equivariant bifurcations and dynamical systems
 -
 Advanced series in nonlinear dynamics -- v. 12 Methods in equivariant bifurcations and dynamical systems
 Notes: Includes bibliographical references and index.
 This edition was published in 2000

Filesize: 61.79 MB

MAGIC046: Introduction to Equivariant Bifurcation Theory

One such a structure is symmetry.

Equivariant dynamical systems

It undoubtedly will provide the frame for inspiring many other applications of this powerful topological tool to problems with symmetries. This includes bifurcations of relative equilibria and relative periodic orbits for compact and noncompact group actions, heteroclinic cycles and forced symmetry-breaking perturbations.

Equivariant dynamical systems

The coordinate transformations extend the symmetry of the vector field evaluated on the periodic orbit to a of the periodic orbit. Every element of the permutation group can be written as a product of simple transpositions in which two objects are swapped.

Applied Equivariant Degree (Differential Equations & Dynamical Systems): Zalman Balanov, Wieslaw Krawcewicz, Heinrich Steinlein, Jianhong Wu, Jerry L. Bona, Hans G. Othmer, Jeff Webb, Messoud Efendiev, Yacine Chitour: 9781601330017: tech.radiozamaneh.com: Books

Hoyle 2006 Pattern Formation: An Introduction to Methods. Nonlinearity 9 1996 , 537--557. Room: TBA Participation: Participation in the reading group is open to all.
