Grenoble : Open Publishing Association, 2014, 51-67. In this sense, the application at very low concentrations of the strigolactone analogues GR24, GR7 and Nijmegen-1 to Striga-infested soils resulted in reduction in the seed population Johnson et al.

## **Personnel of the Department of Public Health**

Moreover, asynchronous signals have to be transmitted to sites, and the choice of the receiving site depends on sites replicated topologies. The customizations are intended to create a collaboration environment that differs from the domain specific generic environments. Recenzenti Ľudmila Zapletalová, Jaromír Šimonek In: Zborník vedeckých prác katedry hier FTVŠ UK č.
