dblp: International Conference on Formal Concept Analysis 2008

After years and years of using computers, companies realized they had stored gigantic amounts of data. The ICFCA conference series gathers researchers from all over the world, being the main forum to present new results in FCA and related? From relational data, FCA can extract implications, - pendencies, concepts and hierarchies of concepts, and thus capture part of the knowledge hidden in the data. We wish to thank the reviewers for all their valuable comments, which helped the authors to improve their presentations.

The ICFCA conference series gathers researchers from all over the world, being the main forum to present new results in FCA and related? The 23 revised full papers presented were carefully reviewed and selected from numerous submissions for inclusion in the book. ICFCA 2008 was in the same vein as its predecessors: high-quality papers and presentations, the place of real debate and exchange of ideas.
