Poetry proved a rich field of exploration in this endeavour, and two scholars made important contributions to the analysis of poetry; their works were to have a major impact on the Arabic poetic tradition for centuries. Di antara faktor-faktor itu, yang terpenting adalah perubahan sosial budaya, kemajuan ilmu pengetahuan dan teknologi, dan kesesuaian dengan tuntutan zaman.

Di lain kesempatan, Abū Bakar juga tidak serta menerima begitu saja riwayat suatu hadis, sebelum meneliti terlebih dahulu periyatannya. This method of compilation allows for certain sections and narratives to be presented as unified wholes; for that reason, Yūsuf the 12th sura, the Qur'ānic version of the narrative has long been a favourite object of study by Western scholars.
