What Are The Most Exciting Things Happening In Science Right Now?

It has fins and a tail for easier underwater navigation.

The 10 Hottest Fields of Science Research

And we certainly don't pine for the days when we had to run a mile around the track and take showers in gym class. This program provides grants to improve career and technical education CTE programs that are consistent with the purposes of the Carl D.

Science News

Well, that's because he hid himself in the muggle world.

plate tectonics

At nighttime, it's colder outside, but the greenhouse stays pretty warm inside.

How to Combine the Probability of Two Events

A greenhouse stays warm inside, even during the winter. After 100 years of carrying out the program one dimension at a time, algebraic geometers race to the top of the ladder. This progress report describes ongoing efforts and implementation practices across the Federal Government as it works to accomplish the goals and objectives of the Strategic Plan.

Bacteria can be coaxed into making the toughest kind of spider silk

If you're a student and your teacher is prone to droning on, you can get bored. Within each subdivision, a set of core papers is designated by frequent and clustered citations, identifying foundational scientific literature that earned a lot of shout outs in reports of subsequent discoveries. If you're after tips, Gent told that contestants will need to be brilliant, very, very lucky, and to have a PhD in computational complexity to have a chance at winning the prize.
