For a recommendation that states whose courts have not already chosen the reasonable use version of the riparian doctrine adopt it by legislation, see Cribbet, Illinois Water Rights Law 50 1958. Carter , Golden Gate University School of Law , Institute of Government Studies , Assembly Committee on Utilities and Commerce , Department of Water Resources , California Regional Water Quality Control Board , California Regional Water Quality Control Board , CalFed Bay-Delta Program , Jesse W. Second, the General Counsel contends that the rule should include information regarding how the contract bar operates during and after the window period and, in particular, should notify employees that they may file a petition within the window period even if the employer and union have already reached a collective-bargaining agreement, and that if they do not challenge the union's status by filing a petition and the parties subsequently reach a collective-bargaining agreement, an election cannot be held for the duration of the collective-bargaining agreement, up to 3 years.

Most of the authority for the position that such enjoyment would be legal at common law consists of California cases which are based at least in part on the theory that the portion of A's riparian land conveyed by him to B continues to be riparian despite its lack of contact with the water. Whether or not the New York courts would be willing to approve such an exception to the widely prevalent common law rule that land cannot be 962 riparian unless it borders on the water is, of course, a speculative matter. It is likely that in addition to the existence of infrastructure roads and commercial electricity other factors as significant as the physical ones, also have contributed to diversification of the local economic base in Amargosa Valley.
