Milk Glass Moon is about the power of love and its abiding truth, and captures Trigiani at her most lyrical and heartfelt. She was profiled on Sunday Morning, appeared on The View, Good Day NY with Rosanna Scotto and Lori Stokes, and is heard regularly on NPR around the country. Their marriage is a good and fulfilling one after several years and they look forward to the future together. I barely have time to get everything done in the present.

Milk Glass Moon by Adriana Trigiani, Paperback

Trigiani's unerring portrayal of the singular personalities that make up the small southwest Virginia town the lively Iva Lou, Ave's best friend; gossipy Fleeta, who works at the Mutual Pharmacy with Ave; the town's Rock of Gibraltar, Spec Broadwater brings humor and poignancy to Ave's richly drawn life in Big Stone Gap. All this controlling, dependent personality does not make sense when Ave Maria has been portrayed as an independent woman in the first two books.

School starts in a few weeks. This is the final part of the trilogy and it deals with the changes that Ave and her daughter Etta face as Etta grows up.
