What if Madara really was a woman? (no joke thread.... i guess...)

With his ruse revealed, Madarame plans on suing Ann and Yusuke for trespassing, as well as the Phantom Thieves for inspiring the heist. They have small and thin, almost blank lizard-like eyes, along with long tongues sticking out of their mouths.

Ichiryusai Madarame

His real self acts calm and humble throughout the events surrounding the heist and even when angered, manages to keep some of his cool, although his Shadow Self will emphasize and flaunt his criminal acts. A common tactic is to use multi-targeting Physical attacks to destroy the eyes and nose, as the mouth has very little variety to its attacks, so that the party can whittle down its health with magic without much concern about elemental weaknesses or enemy buffs and debuffs.

Teresa Madruga

He chases Ryoko down into a dark shed, where Ryoko gets the upper hand and tricks him.

Original Paintings

There is enough chemistry and tension between him and Hashirama to make their story believable and understandable.
