The TEXT editor built into the firmware of the portable computer supported a subset of the Wordstar cursor movement commands in addition to its own. You have reached the WordStar Resource Site! Other add-on programs included SpellStar, a program, later incorporated as a direct part of the WordStar program; and DataStar, a program whose purpose was specifically to expedite creating of the data files used for merge printing. If that's the case, run the available setup and follow the on-screen instructions for a complete and successful installation.

Obviously, everyone won't take advantage of every feature of the program, and that's why you shouldn't let all the disks disconcert you. WordStar can index selected words or every word in a document. Such machines were expensive and were generally accessed through terminals connected

to central mainframe or midrange computers.
