Nahant is a promontory which stretches out into the bay a few miles north of Boston ; or it might rather be called two islands, connected with each other and with the mainland by ridges of sand and pebbles. One great practical difficulty is to secure regularity and perseverance in taking the medicine, and the bulk of the sesquioxyde forms the principal objection to its use.

**CalmView: Home Page**

This is not the place in which to enter upon the interesting inquiry into the principles of the education of the deaf and dumb; a deep and wide subject, involving matters important to multitudes besides the class under notice. It appears to be only about five-and-forty years since the education of the blind was first undertaken ; and it is much more recently that any just idea has been formed by anybody of the actual number of the blind.
