Occurrence:- Faberophyllum zone, Rundle lime-stone, Mount Norquay, Banff National Park, Alberta. Geological Survey of Canada, Memoir no.

Remarks: This genus differs from Dibunophyllum Thomson and Nicholson 1876; Clisiophyllum Dana 1846; Carcinophyllum Thomson and Nicholson 1876; and Konkophyllum Thomson and Nicholson 1876 principally in the prominent closed cardinal fossula with the pinnate arrangement of the septa in the cardinal quadrants.

## Callum Creek, Langford Creek, and Gap map

Geology of the zinc-lead deposit on Calumet Island, Quebec. Extract Bulletin of the Geological Society of America Vol. Mining industry of Yukon, 1936.
